The final programme is now available from the [MIE 2011.org](http://MIE2011.org) website. Four days are filled with exiting topics covering Health Informatics. The programme is available in downloadable pdf version, and as an [App](#) for mobile phones. The App Runs on Symbian, Windows Mobile 6.5, and regular mobile phones from Nokia, Sony-Ericsson, Samsung, etc.

If you have not signed in for the conference, the time is now! Do not miss this major event in Oslo, and welcome!
